Fundamentals of Auditing

Duration: 2 Days
Timing: 9 am to 5 pm

Course Description

Learn how to conduct effective audits. This two-day course covers auditing fundamentals as well as the additional auditing processes that are unique to the API program. Upon successful completion of this course, you will know how to:
• Apply the principles, procedures and techniques of planning and conducting effective audits;
• Manage the audit process from planning to reporting to closing out nonconformities;
• Demonstrate personal attributes and skills expected from auditors.

Who Should Attend

This course has been designed for the oil and gas industry:
• Personnel involved in the auditing of an organization's management system;
• Professionals seeking auditor refresher training;
• Individuals wishing to learn how to audit and understand the audit process
